

JOB OPPORTUNITY

Site Supervisor – Care & Maintenance

Mount Nansen Mine Site (near Carmacks, YT) - Full-Time Permanent
Rotation: 14 days on – 14 days off

Ensero Solutions is an environmental consulting and remediation business with specific expertise in environmental assessments, active/passive water treatment, microbiological testing, and turnkey remediation services for the mining industry and broader industrial sectors. At Ensero, we get the opportunity to make a positive impact on the environment and people's lives. We're building a culture where people can grow their careers and are challenged to solve our client's toughest environmental problems.

About the Role

Reporting to the Operations Manager, the Site Supervisor is responsible to oversee the care and maintenance of the Mount Nansen mine site including the construction activities and the operation of a water treatment facility.

Key Responsibilities

- Monitor and promote system environmental health and worker safety compliance;
- Oversee and support the care and maintenance of a closed mine site and the operation of a water treatment facility.
- Ensure plant operations, performance, and reporting requirements conform to operating standards and procedures, and initiate control process adjustments in response to changing conditions.
- Support general care and maintenance activities on site including maintenance of site pumps, distribution systems (water, electrical and fuel), communication systems, buildings, and roadways.
- Maintain all on-site equipment in good and safe working order by performing regular inspections, preventative maintenance and repairs.
- Ensure the cleanliness/safety of the site.
- Conduct daily/weekly/monthly sampling, inspections and monitoring of tailings area, ponds, and water from various sources at site.
- Prepare daily/monthly/quarterly summary reports of site operation.
- Provide weekly, and monthly Operational reports
- Supervise care and maintenance operators.
- Develop or aid in the development of standard operating procedures, safety procedures and training,
- Provide leadership, direction, coaching, and professional development opportunities for direct reports
- Identify and recommend improvements to operations to ensure assigned functions are efficient and cost effective.
- Supports risk analysis and risk reviews.
- Other related duties as required.

About You

- Level III Wastewater Treatment Certificate an asset.
- Minimum 5 years' experience in a construction/operations and site supervision.
- Minimum 5 years' experience in an industrial setting.
- Previous experience operating heavy equipment considered an asset.
- Is in possession of a current Driver's License.
- Strong written, verbal, and interpersonal communication skills.
- Previous experience operating hand tools, small machinery, and other necessary equipment.
